## MATERIALS

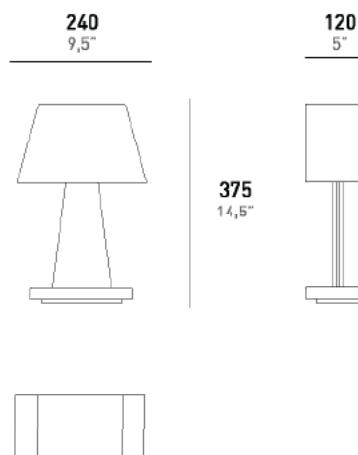

Marble  
Acrylic  
Double-Molded Acrylic

## DESCRIPTION

TAILOR is a modern abat-jour consisting of a marble base, a clear acrylic stem and the bi-cast methacrylate lampshade that incorporates pure linen fabric. It is an innovative material, created through a production process, which allows to obtain multiple layers: a translucent one, able to diffuse the light in a uniform way, one with the fabric and finally a clear one.

The marble element has 3 variants: White Carrara, Imperial Grey and Brown Emperador. All types of Italian-made marble are chamfered and polished.
